ADNAN YOUSAF

MERN Stack Developer

📞 +923408752827   @ yousadadnan998@gmail.com   🔗 **https://ay-3d-portfolio.netlify.app/**   📍 Islamabad, Pakistan

SUMMARY

I am a MERN Stack Developer with over 1.5 years of experience and 6 month of experince in SEO. My expertise lies in creating responsive, high-performance web applications using React.js and Next.js, integrating APIs with Node.js, and ensuring optimal user experiences. I thrive in collaborative environments and have a keen eye for detail, driving projects to successful completion

EXPERIENCE

MERN Developer

Sysreforms International

📅 02/2024 - Present   📍 Islamabad, Pakistan

A software company focused on developing innovative web applications

- Design responsive UIs using Material UI, Tailwind CSS, and Bootstrap 5, ensuring cross-browser compatibility
- Developed and optimized high-performance web applications using Next.js and React.js, leveraging SSR, SSG, hooks, code splitting, lazy loading, and react virtualization
- Develop RESTful APIs using Node.js and Express.js; integrated data flows in the frontend with Axios, Redux and Formik/Yup for schema-based form validation
- Implemented Git-based version control workflows (feature branching, pull requests, code reviews) using GitHub, enabling smooth team collaboration

Web Designer & SEO

Pakistan Detector Technologies

📅 01/2023 - 06/2023   📍 Islamabad

A privately owned international trading and distribution company

- Designed and developed user interactive pages using Bootstrap & JavaScript
- Gained foundational knowledge of website structure, search engine behavior, and how Google indexes content
- Assisted in on-page SEO tasks, including keyword research and content optimization to improve visibility
- Supported basic technical SEO efforts such as fixing broken links, analyzing site performance, and ensuring mobile compatibility

EDUCATION

BS in Computer Science

Virtual University

📅 09/2022 - Present   📍 Islamabad, Pakistan

HSSC

APS Pothwar Complex

📅 01/2020 - 08/2022   📍 Islamabad, Pakistan

SKILLS

Html/Css	**Boostrap 5**	**Material Ui**
Tailwind Css	**JavaScript**	
React/Next.js	**Node/Express.js**	
MySql/MongoDB	**Git/Git Hub**	

PROJECTS

MDMC Licensing & Registration Portal (Drap Project)

🔗 https://drap.sysreformsint.com/login

A project for DRAP to streamline medical drug management

- Developing a centralized web portal for end-to-end licensing, registration, and track-and-trace of medical drugs across Pakistan
- Worked on a dynamic form template library to automate form generation, eliminating manual page creation
- Handled end-to-end frontend development including UI/UX design, API integration, and website optimization

PVS Pathway (Woah project)

🔗 https://pvs.woah.org/

A project focusing on delivering global veterinary services

- Responsible for debugging and resolving issues across both the frontend and backend, ensuring application stability and performance
- Develop new pages and implement RESTful APIs to enable seamless data flow

Transition Progress from AIS to AIM (ICAO Project)

Monitoring the implementation progress of the transition from AIS to AIM in Central America

- Converted existing pages of the project to Next.js, designing new pages using MUI and Bootstrap
- Integrated APIs using RTk Query
